‡ The style file was generated by Xuejun Dong (xuejun.dong@ndsu.edu) using `makebst.tex`, available from standard MikTeX distribution. See <http://www.medicalnerds.com/latex-bibliography-management-and-styles/> on how to make a new style file.

§ The style file is available from “L^AT_EX Style and BibT_EX Bibliography Formats for Biologists: T_EX and L^AT_EX Resources” (by Tom Schneider) at <http://www.lecb.ncifcrf.gov/~toms/latex.html>. The style files for a few other biology journals are available from this web-site.

¶ The style file is available from “L^AT_EX Bibliography Styles Database” at <http://jo.irisson.free.fr/bstdatabase/index.php>. The style files for many other journals may be downloaded from this web-site.
